Conni floor mat is a waterproof anti-slip floor protector designed to contain leaking that may occur when arising from bed or chairs. It is ideal for bathrooms and toilets and under commodes and IV stands. They are also great for general use in high-traffic areas and entranceways.

The Conni floor mat is extremely low profile and remains firm and flat on the floor reducing the risk of slips, trips and falls. Anti-Slip performance is best achieved when the mat is used on a clean, smooth and flat non-textured floor. Some surfaces and floor cleaning products may interfere with the anti-slip performance.
