

SymplBrush Sizing Fact Sheet

The SymplBrush has two starter kit options.

SymplBrush Junior (Pink/Purple or Blue/Teal) – Comes with a Junior Small and Junior Large Bristle in the box.

Junior Small Bristle – Approx 5cm teeth width molar to molar.

Junior Large Bristle – Approx 6cm teeth width molar to molar.

Only Junior Bristles, are compatible with the Junior Brush.

SymplBrush Adult – White/Teal. – Comes with a Adult Small and Adult Large Bristle in the box.

Junior Small Bristle – Approx 6cm teeth width molar to molar.

Junior Small Bristle – Approx 7cm teeth width molar to molar.

Only Adult Bristles, are compatible with the Adult Brush.

If the wrong sized starter kit is ordered, we will happily exchange to the alternate starter kit – just return it to us!

As a general guide, most teens and adults will use the Adult Kit, unless they are petite in size.

Adults with small mouths, the elderly, and kids of course, will often need the Junior Brush.

Extra tip – The Junior Large, And Adult Small bristles are the same physical sizing, so If the personal has a ‘smaller’ mouth, the Junior Brush is probably the way to go!
